Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers - - - - -	19
Stocks of leaf tobacco, summary by types - - - - -	20

## EXPLANATION OF GROUP SYMBOLS

### GROUPS OF TYPES 11, 12, 13, and 14:

- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 21, 22, 23, and 24:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 31:

- A-Wrappers
- B-Bright leaf, red leaf, and tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 32:

- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 35, 36, and 37:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 41:

- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 42, 43, and 44:

- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 46:

- C-Superior
- X-Inferior
- Y-Defectuoso
- S-Scrap (Picadura)
- N-Nondescript

### GROUPS OF TYPES 51, 52:

- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 53:

- B-Binders, seconds, and brokes
- X-Crop-run and stemming grades
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 54 and 55:

- B-Binders
- C-Fillers
- X-Crop-run and stemming grades
- S-Scrap
- N-Nondescript

### GROUPS OF TYPE 56:

- B-Binders
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 61 and 62:

- A-Wrappers
- B-Stout wrappers and binders
- C-Fillers or tips
- S-Scrap
- N-Nondescript

### GROUPS OF TYPES 81, 82, and 83:

- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

Total Stocks Up From A Year Ago.

Stocks of all types <sup>1/</sup> of leaf tobacco totaled 3,690 million pounds (farm-sales-weight) on October 1, 1949 <sup>2/</sup>. This is about 4 percent higher than stocks on the same date last year, when there were 3,549 million pounds reported by dealers and manufacturers in the United States and Puerto Rico.

During the third quarter, July-September, 1949, approximately 810 million pounds of tobacco were marketed by growers as compared with around 725 million pounds for the same quarter last year. The marketings consisted principally of flue-cured tobacco, but also included Maryland and cigar-leaf.

A summary by classes of tobacco shows flue-cured and Burley stocks up about 4 percent and 8 percent respectively from the previous October 1, while fire-cured, Maryland and dark air-cured holdings declined slightly. For domestic cigar-leaf, stocks of the filler types were down because of the marked decrease in Puerto Rican. Binder Holdings were also lower, but stocks of the shade-grown wrapper types were up 9 percent.

---

<sup>1/</sup> Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. Tables in the body of the report show stocks on a farm-sales-weight basis; stocks in detail on a reported weight basis, subdivided according to recognized groupings; and stocks owned by dealers and manufacturers, separately.

<sup>2/</sup> The general instructions for filing the tobacco stocks reports, required of dealers and manufacturers by the United States Department of Agriculture, specify that the report shall be made as of the opening of business on the first day of each quarter.

CIGARETTE-LEAF STOCKS

Flue-cured Stocks Greater, Burley Carryover Highest on Record;  
Maryland Down Slightly from Last October 1.

Marketing of the 1949 flue-cured crop, estimated at somewhat over 1.1 billion pounds, began in July and sales totaled 795 million pounds through September 30 - considerably more than marketed through this date last year. Stocks of flue-cured tobacco were raised to 1,941 million pounds as of October 1, 1949, compared with 1,874 million on October 1, 1948.

Burley tobacco stocks were the highest on record for this quarter, reflecting the large 1948 crop resulting from very heavy yields per acre. Dealers and manufacturers inventories of Burley tobacco were 974 million pounds for an increase of 72 million over the October 1 level a year ago. Disappearance of Burley during the past marketing year (October 1948-September 1949) as indicated by stocks, amounted to 531 million pounds compared with 523 million during the previous marketing year. Exports of Burley tobacco were 41.9 million pounds for an increase of 14.4 million, while indicated domestic consumption of 489 million pounds was slightly under the previous year's figure.

Stocks of Maryland leaf amounted to 54 million pounds on October 1, 1949, a decline of 2 million from a year ago. Marketing of the 1948 Maryland tobacco crop of about 35 million pounds was completed during the third quarter this year. Indicated disappearance of Maryland leaf during the October 1948 - September 1949 period was 37 million pounds compared with 34.3 during the previous year. Exports during the past marketing year were the largest in recent years, amounting to 9.1 million pounds compared with 7.3 million exported the year before. Domestic consumption of 27.9 million pounds was slightly greater than for the previous year.

Holdings of Foreign-grown cigarette and smoking tobacco (Turkish and other) totaled 134.2 million pounds this October 1 as against 112.4 million on October 1 last year.

DARK TOBACCO STOCKS

Fire-cured and Dark Air-cured Stocks Lower

Stocks of fire-cured tobacco were 3 percent lower this October 1, totaling 157.2 million pounds compared with 162.6 million a year ago. Exports of 43.2 million pounds during the marketing year, October 1948-September 1949, was considerably larger than during the previous year and resulted in the decrease in stocks. However indicated domestic consumption of 35.4 million pounds was about one million pounds less than the previous year. Stocks of fire-cured leaf by types were 21.9 million pounds of Virginia fire-cured, 91.6 million of Eastern District fire-cured, 43.4 million of Western District fire-cured and 0.3 million of Henderson Stemming fire-cured.

Holdings of dark air-cured tobacco were 74.1 million pounds, a decrease of 3.1 million from last October 1. During the past marketing year, October 1948 - September 1949, disappearance as indicated by the level of stocks was 37.9 million pounds compared with 32.7 million the previous marketing year. The larger disappearance was the result of greater exports which amounted to 14.8 million pounds - more than double the 6.4 million shipped abroad the previous year. Indicated domestic consumption dropped to 23.1 million pounds or 3.2 million below the previous year. Dark air-cured stocks were divided as follows: 38.8 million pounds of One Sucker, 32.1 million of Green River, and 3.2 million of Virginia sun-cured.

CIGAR-LEAF STOCKS

Cigar-filler and Binder Stocks Lower;  
Shade-grown Holdings Larger Compared With Last October 1;  
Stocks of Cuba (Havana) Reduced Further.

Holdings of cigar-leaf were 330.2 million pounds of all domestic types including Puerto Rican, and 20.1 million of foreign-grown cigar-leaf on October 1, 1949. The corresponding figures for October 1, 1948, were 337.6 million pounds and 25.1 million pounds, respectively. Large exports was the primary cause for the decrease in stocks of the domestic types. During the 12 months, October 1948 - September 1949, which is the marketing year for the filler and binder types, exports of cigar-leaf tobacco reached the record total 23.2 million pounds compared with 7.2 million during 1947-48 - a previous record.

Filler stocks including Puerto Rican were 185 million pounds whereas holdings of these types totaled 191.7 million pounds on October 1, 1948. Pennsylvania Seedleaf stocks were up 6.1 million pounds and Ohio filler inventories increased 2 million over a year ago, but these increases were more than balanced by the sharp decrease of 14.9 million pounds in stocks of Puerto Rican filler. Stocks of filler consisted of 106 million pounds of Pennsylvania seedleaf, 25.9 million of the Ohio filler types, and 53.1 million of Puerto Rican. Slightly over one-half of the Puerto Rican stocks were held on the Island. Based on October 1 stocks, disappearance by types of cigar filler tobacco for the 1948-49 marketing year and corresponding figures for the previous year were as follows: Pennsylvania seedleaf 54.3 million pounds and 53.8 million, Ohio filler 7.9 million and 7.9 million, and Puerto Rican 40.4 million and 32.4 million, respectively.

Stocks of the cigar-binder types were 123.3 million pounds compared with 125.8 million a year earlier. Connecticut Valley Broadleaf holdings showed the largest decrease, being 3.8 million below the previous October 1, but stocks of Northern Wisconsin were about one million pounds lower. On the other hand, stocks of Southern Wisconsin leaf were 2.6 million pounds above the figure for October 1, 1948. Binder type stocks on October 1, 1949 were divided as follows: Connecticut Valley Broadleaf 26.5 million pounds, Connecticut Valley Havana Seed 19.8 million, New York and Pennsylvania Havana Seed 1.7 million, Southern Wisconsin 39.8 million, Northern Wisconsin 35.2 million and Georgia and Florida binder 0.3 million. Total disappearance of cigar-binder tobacco during the October 1948 - September 1949 marketing year, as indicated by stocks, was 63.6 million pounds compared with 68.2 million for the previous year. Disappearance of the Connecticut Valley types exceeded the previous year's figures, whereas the amount was smaller for the Wisconsin types.

Shade-grown cigar wrapper leaf stocks were 21.9 million pounds on October 1, 1949 - an increase of 1.9 million from the previous October 1 level. Most of the 1949 crop of Georgia and Florida shade, estimated at 5.6 million pounds, was in stocks as of October 1, while the bulk of Connecticut Valley shade enters stocks after this date. Connecticut Valley shade holdings were 13.3 million pounds, and Georgia and Florida shade 8.6 million.

Stocks of Cuba (Havana) leaf were 19.4 million pounds on October 1, 1949 or 4.7 million pounds less than was on hand a year earlier. Stocks of other foreign types were 0.5 million pounds of Sumatra and Java, 0.2 million of Philippine Islands (Manila), and 0.1 million of Other Foreign-grown cigar-leaf.

Table 1.--Average percentage of weight remaining after handling, sweating, drying, and stemming for all types of tobacco, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales weight equivalent 1/

MISCELLANEOUS DOMESTIC AND FOREIGN-GROWN TYPES (71-90)

Type	No.	Yield realized from farm-sales weight to:				Stemming				Factors used to multiply by	
		Packed in domestic order				Yield from:				to convert reported stocks	
		Percent	Percent	Percent	Percent	Packed weight	Yield from actual weight	Yield from farm-sales weight	Yield from weight	Stemmed stocks to farm-sales	Unstemmed stocks to farm-sales
Miscellaneous Domestic	72-73	--	--	--	--	--	--	--	--	5 1.333	5 1.09
Foreign-grown cigar leaf	81-84	--	--	--	--	--	--	--	--	5 1.205	(6)
Foreign-grown cigarette and smoking tobacco	90	--	--	--	--	--	--	--	--	5 1.205	(6)

1 Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2 Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating and storage. 3 Ohio-Miami Valley filler types of tobacco packed in cases by growers before delivery. 4 See footnote 1 on page 5 for conversion factor to the farm-sales weight equivalent. 5 Tentative factor. 6 Factor has not been determined.

Table 2.-Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, October 1, 1949, compared with other quarters 1/

# FARM-SALES WEIGHT

Type name	U.S. type number	October 1			July 1	April 1	January 1

Total all types	11-90	3,690,018	3,549,326	3,332,506	3,509,013*	3,851,391	3,874,543

1/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for October 1, 1949 are as follows: Type 41, 108; Types 42-44, 113; Type 51, 107; Type 52, 107; Type 53, 113; Type 54, 106; Type 55, 106; Type 56, 123; Type 61, 110; Type 62, 107. October 1, 1949 figures subject to revision.

2/ For explanation of stocks included in this classification, see footnote 6 on page 17.

3/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

4/ Does not include Sumatra and Java leaf etored in the Free Trade Zone.

\* Revisions in July 1 report.

-------	-----------	---------	-----------	------------	---------	------------

1/ Subject to revision.

2/ See Supplementary Burley report on page 18.

3/ Most of the stocks in the X and Y groups will go into scrap chewing manufacture as well as part of that included in the scrap group.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Type 84.--Other foreign-grown all shown in the C group.

6/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

7/ Does not include Sumatra and Java leaf stored in the Free Trade Zone.

\* Revisions in July 1 report.

<sup>1/</sup> These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

<sup>2/</sup> The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

<sup>3/</sup> Includes stocks on the Island of Puerto Rico.

<sup>4/</sup> For explanation of stocks included in this classification see footnote 6 on page 17.

<sup>5/</sup> Does not include Sumatra and Java leaf stored in the Free Trade Zone.

Table 7.-Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, October 1, 1949 compared with other quarters 1/

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1948, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

2/ Subject to revision.

3/ For explanation of stocks included in this classification see footnote 6 on page 17.

4/ Does not include Sumatra and Java leaf stored in the Free Trade Zone.

\* Revisions in July 1 report.
